

# UNC System Minimum Admission Requirements

---

Minimum Admission Requirements of the University of North Carolina System must be met by transfer and non-transfer students alike. Minimum Admission Requirements consist of:

- Four course units in English
- Two course units of a language other than English.
- Four course units of mathematics
- Two course units in social studies, including one unit in U.S. history, but an applicant who does not have the unit in U.S. history may be admitted on the condition that at least three semester hours in that subject will be passed by the end of the sophomore year
- Three course units in science, including
  - at least one unit in a life or biological science (for example, biology),
  - at least one unit in physical science (for example, physical science, chemistry, physics), and
  - at least one laboratory course.

Students who did not complete the Minimum Admission Requirements in high school have two options:

1. Minimum Admission Requirements may be satisfied by successfully completing an Associate in Arts or Associate in Science degree program with a 2.0 gpa or higher at Johnston Community College.
2. Minimum Admission Requirements may be satisfied by successfully completing six semester hours each in college transfer English, math, social and behavioral sciences, and natural sciences, with a 2.0 gpa or higher.

Colleges and universities vary widely in transfer requirements for entrance into, and completion of, study in a major field. The aforementioned only represents the **minimum admission requirements**. Students are advised to:

- carefully study the catalogs of four-year baccalaureate-level institutions to which they are considering transfer; and
- consult an admissions representative as early as possible prior to transfer application in order to determine admissions and transfer requirements for each institution you are considering.
- Review the [Comprehensive Articulation Agreement](#) for complete details on transferability of courses.
